

1. **"First of all, I love this product**, now that I have built up to the 3rd coat, there is a MASSIVE difference. I notice far less echo in the engine compartment, and the deck actually feels more solid. I cannot wait to get the engines back in and see the difference"

Engines Removed

After Cleaning

First Coat of Silent Running

First Coat of Bilge Coat

Boat shown is a
1980 Silverton GulfStream 31
M/V Bubbles Up

2. Before we bought Silent Running, we made two test boxes, using your sample, similar to the test boxes that you exhibited at IBEX. The nonscientific result, meaning our ears, was a noticeable 50% drop between the two boxes, and made the decision to coat the engine room of our new boat with it. I remember the earlier skeptics after your announcement of the product; they were wrong. your claims are true, as far as we are concerned."
